

SR30 Drain Camera

For 25 - 80 mm Pipes

FEATURES

- Compact camera head negotiates tight bends easily.
- A Powerful 33 kHz sonde is integrated into the camera head for easy location even when up to 4m deep. Also works under concrete.
- New WIFI technology allows you to connect to multiple devices and take photos, snapshots and videos.
- Ability to send photos, snapshots and notes direct from the app in your device to your client.

The Sewercam SR30 wifi drain camera is a 30m push camera for inspecting pipes from 25mm. Small and compact: Our cameras are designed to reach even the most difficult-to-reach places.

The non-destructively inspection enables you to inspect even the tightest spaces and saving costly disassembles. Tubes, cavities, welding seams, turbines, hollow profiles and castings: The camera head with only 18mm diameter inspects these easily.

At the same time, the cameras are so robust that they can easily withstand the harsh field conditions. In this way you locate all surface damages, cracks, sediments and deteriorations with minimal effort.

SPECIFICATIONS

MODEL	Sewercam SR30
DIMENSIONS	400 (H) x 360 (W) x 170mm (D)
WEIGHT	Max. 6 kg
DRAIN SIZE	Pipe diameter between 30 up to 90mm
CAMERA HEAD	18 mm camera head pressure-tight up to 3 bar
METER	Meter counter
SONDE	33 kHz / 512 Hz / 640 Hz locating sonde
PUSH ROD	30m push-pull cable
DISPLAY	Sunlight-readable 7" display
BATTERY	Internal Battery (5-7 hours)
WARRANTY	12 months warranty
